

IMPLEMENTATION OF OPEN ACCESS ELECTRONIC JOURNAL

Submitted By

Registration No.: 20602000069

Session: 2020-21

A Project Submitted in Partial Fulfillment of the Requirements for the
Degree of Masters of Science in Computer Science and Engineering

**DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING
NATIONAL UNIVERSITY, BANGLADESH**

April, 2024

APPROVAL

The Project Report “Implementation of Open Access Electronic Journal [International Journal of Computer and Electronics Engineering]” submitted by Registration No: 20602000069, Session: 2020-21, to the Department of Computer Science and Engineering, National University, Bangladesh, has been accepted as satisfactory for the partial fulfillment of the requirements for the degree of Bachelor of Science in Computer Science and Engineering and approved as to its style and contents.

DECLARATION

I, hereby, declare that the work presented in this project **International Journal of Computer and Electronics Engineering** is the outcome of the investigation performed by me under the supervision of **Professor Dr.Md. Abdul Mannan Mondal**, Professor, Department of Computer Science and Engineering, National University, Bangladesh. I also declare that no part of this project report and thereof has been or is being submitted elsewhere for the award of any degree or diploma.

ABSTRACT

Electronic Journal is an innovative online platform dedicated to publishing academic articles and research papers in the field of Computer Science and Engineering (CSE). The objectives of this project is to provide a user-friendly and easily accessible space for researchers, academicians, and students worldwide to share their knowledge and findings. The journal aims to foster a diverse and global community of collaboration by overcoming the limitations of traditional print-based publishing, which can be time-consuming, expensive, and often restricted to a limited audience. However, it also acknowledges the limitations of mail-based publication, such as potential delays and formatting issues, despite the widespread adoption of email-based communication. The Electronic Journal ensures a high-quality collection of research papers, covering a wide range of CSE topics, including computer networks, artificial intelligence, software engineering, and computer graphics. Through this endeavor, this project seek to contribute significantly to the advancement of CSE and the academic community.

ACKNOWLEDGEMENTS

First of all I would like to thank the Almighty ALLAH. Today I am successful in completing my work with such ease because He gave me the ability, chance, and a cooperating supervisor.

I would like to take the opportunity to express my gratitude to Dr.Md.Abdul Mannan Mondal, my respected supervisor. Although he was always loaded with several other activities, he gave me more than enough time for this work. He not only gave me time but also proper guidance and valuable advice whenever I faced difficulties. His comments and guidance helped me a lot in preparing my thesis report.

I would like to thank Md.Monir Hossain, my respected teacher, who inspired me in every step. I am also thankful to my teachers who helped me in a number of ways by providing various resources and moral support.

Last of all I am grateful to my family; who are always with me in every step of my life.

Table of Contents

ABSTRACT.....	IV
ACKNOWLEDGMENTS.....	V
TABLE OF CONTENTS	VI
LIST OF FIGURES	VIII

Chapter 1: Introduction

1.1 International Journal of Computer and Electronics Engineering Introduction	11
1.1.1 What is an Electronic Journal	12
1.1.2 Concept of an Electronic Journal	12
1.1.3 Components of an Electronic Journal	13
1.2 Objective of the Project.....	14
1.3 Significance of Electronic Journal	14

Chapter 2: Literature Review

2.1 Overview	16
2.2 Background of Electronic Journal.....	16
2.3 The Literature Review Process	17

Chapter 3: Proposed System

3.1 Overview	19
3.2 Related/Existing System	19
3.3 Drawbacks of existing System	20
3.4 Proposed System	21

Table of Contents

Chapter 4: System Requirements

4.1 Overview	24
4.2 System Requirement	24
4.2.1 Hardware Requirement	25
4.2.2 Software Requirement.....	25

Chapter 5: System Design and Architecture

5.1 Overview	27
5.2 Methodology	27
5.2.1 Agile Methodology	28
5.3 Design	29
5.3.1 E-R Diagram	30
5.3.2 Data Flow Diagram.....	31
5.3.3 Use Case Diagram.....	32

Chapter 6: System Implementation and Development

6.1 Overview	35
6.2 Implementation Methodology	35
6.3 Programming languages, frameworks, and tools used.....	36
6.4 Database design and implementation.....	38
6.5 Some snapshots of our project	38

Table of Contents

Chapter 7: Deployment and Maintenance

7.1 Overview	49
7.2 Preparing for Deployment.....	50
7.3 Deployment Strategies	51
7.3.1 Version Control System	
7.3.2 Configuration Management Tools	
7.3.3 Monitoring and Logging	
7.4 Post Deployment and Testing	53
7.5 Handling Maintenance and Updates	55

Chapter 8: Conclusion and Recommendation

8.1 Summary	57
8.2 Limitations and Future directions	58
